

QUICK START

LED flashlight

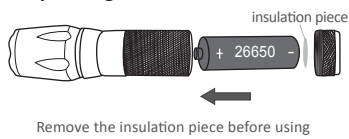

E-453

www.byblight.com

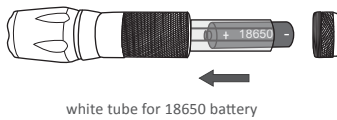

Good Days
BYBlight

Battery installation

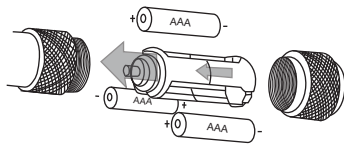

1. 26650 battery setting (26650 battery included)

2. 18650 battery setting (18650 battery not included)

3. AAA battery holder (AAA battery not included)

Attention

Don't expose to liquid, or it may cause the flashlight damaged

Follow the instructions as to proper using, do not disassemble by yourself

Use the flashlight in the normal condition, avoid the extreme temperatures to destroy the LED chip

Do not stare directly into beam or point directly into anyone's face

To avoid risk of injury, do not let any material leaked from a battery come in contact with eyes or skin

When replacing batteries, always replace the whole set
